

# Adapter cable for connection of a CT-DECT Multi to EOD helmets (Hazmat)

Part No. 09 13 021

## Instruction Manual

Fig. 1

- a 6-pin coupling for connection to the 6-pin plug of the EOD helmet (Hazmat)
- b Straight cable approx. 100 mm long
- c Housing with matching electronics
- d Straight cable approx. 300 mm long
- e 6-pin plug for connection to the 6-pin socket at the CT-DECT Multi

---

## 1. Safety instructions

*For the use of the device notice the national safety and accident prevention regulations and the following safety instructions shown in italics in this instruction manual.*

- *Before using CeoTronics products read completely the appropriate operating instructions. If in doubt, ask our technical staff.*
- *If repair work of any kind needs to be done to CeoTronics products, arrange for it to be performed only by the company CeoTronics or by a specialized workshop that is authorized by CeoTronics. In all other cases our warranty and liability for the product shall lapse.*
- *Do not store CeoTronics products outside or in damp ambient conditions. At all times keep them clean, dry and at normal air humidity. CeoTronics products must not be stored in areas with a temperature of over +80° C (+176° F), e.g. in the summertime on the parcel shelf of a car. If not stated otherwise, the following temperature ranges are allowed for CeoTronics products: -10 to +55° C (+14 to +131° F) for operation, -40 to +80° C (-40 to +176° F) for storage.*
- *Do not immerse a CeoTronics product into water, if it is not expressly specified for this purpose.*
- *When using CeoTronics products that are equipped with connection leads ensure that the latter do not get caught up in operational machinery or wheels!*
- *CeoTronics products that are not intrinsically safe (explosion-proof) and therefore have no special explosion-proof designation must never be operated in potentially explosive environments (e.g. when refuelling cars, aircraft etc.). Devices that are not explosion-proof can unintentionally trigger off explosions in such areas!*
- *Connect CeoTronics accessories to a device or disconnect them from a device only when the device is switched off.*
- *Keep CeoTronics products out of the reach of children and any other persons who are not familiar with the handling and operation thereof.*
- *Packaging materials, e.g. filling materials and plastic bags are not toys and have to be kept out of the reach of children. There is a risk of children ingesting them and choking!*
- *Safe operation requires clean devices. Ensure that the devices (microphones, connectors etc.) are clean and in good condition at all times.*
- *CeoTronics products may only be used for the specific application envisaged.*
- *Should equipment, supplied by CeoTronics, be definitely put out of service you may return it to CeoTronics. We ensure recycling and/or disposal of outdated equipment in compliance with the applicable environment protection law.*

## 2. Purpose

The adapter cable Part No. 09 13 021 (see Fig. 1 on the front page) is used for connection of the transmitter/receiver device CT-DECT Multi to the EOD helmet (Hazmat).

**To avoid damage at the CT-DECT Multi only the EOD helmet (Hazmat) may be connected via the adapter cable Part No. 09 13 021 to the CT-DECT Multi. Notice section 3.**

---

### 3. Connection

#### CAUTION

**Notice the following to avoid damage at the CT-DECT Multi:**

**Connect the EOD helmet (Hazmat) only via the adapter cable Part No. 09 13 021 to the CT-DECT Multi, never directly.**

**If you are in the possession of other CT headsets for the CT-DECT Multi, never connect this CT headsets via the adapter cable Part No. 09 13 021 to the CT-DECT Multi. Connect this CT headsets always directly to the CT-DECT Multi.**

- a. Connect the adapter cable via the 6-pin plug (Fig. 1/e) to the 6-pin socket at the top of the CT-DECT Multi.
- b. Connect the adapter cable via the 6-pin coupling (Fig. 1/a) to the 6-pin plug of the EOD helmet (Hazmat).

### 4. Safekeeping – storage

After use, keep the cleaned adapter cable in a clean and dry place at normal room temperature and at normal relative air humidity.

### 5. Maintenance

#### 5.1 Visual inspections

Examine the adapter cable regularly for signs of fractures, cracks and wear. Send a defective adapter cable to CeoTronics for repair.

#### 5.2 Cleaning

#### CAUTION

**Do not immerse the adapter cable in water. No moisture may be allowed to penetrate it. Do not use any solvents (benzine, alcohol, etc.) for cleaning purposes!**

Remove any loose dust with a soft brush. Clean the outside with a suitable clean cloth that has been slightly moistened with clear water, and rub the parts dry afterwards. If heavily soiled, some dishwashing liquid can be used in addition.

If necessary, clean the contacts of the connectors with a commonly available contact cleaning agent.
